The Ha'wiih of the Five Nations is authorizing a fishery to open on the terms set out in this notice. It is important for fishers to be aware that DFO is imposing some licence conditions on this fishery opening that the Ha'wiih are not including as requirements for the Aboriginal rights-based fishery. The areas highlighted in blue in this notice indicate those licence conditions imposed by DFO. Fishers should be aware of these conditions. Fishers who choose not to follow licence conditions imposed by DFO may face potential ramifications, including charges and prosecution from DFO, for violations of the *Fisheries Act* and other regulations.

The Ecotrust monitor will validate your catch, collect fishing logs, and provide you with a T’aaq-wiihak landing slip. 20% of landings will also be CWT sampled by Ecotrust monitors in Tofino, or by J.O. Thomas Monitors in Zeballos. Fishers **MUST HAIL IN** at least **24hrs in ADVANCE** to confirm a landing time and to arrange for a monitor to be at the landing site. Please understand that we need time to arrange this. You can HAIL IN to 250-266-0418. The HAIL phone is monitored Monday to Sunday 9am – 5pm.

PLEASE NOTE: Designated monitors will only be available to validate catch Monday – Friday.

Landings can occur only at the designated landing sites outlined below:

FISHING LOGS: Fishers must fill out a Fishing Log on a daily basis (one page per fishing day) recording all kept AND released fish. This fishing log must be submitted to the monitor at the time of landing

PACKING FISH: Packing, or landing catch for another vessel, is only authorized in cases where the combined catch on board the vessel does not exceed the trip limit. If the catch does exceed the trip limit, written authorization from your fisheries manager will be required. The packer must produce a signed fishing log (completed by the fisher) for the catch.

MONITORING

- 100% of landings and catch must be monitored by a T’aaq-wiihak Monitor prior to sale. A T’aaq-wiihak landing slip is required before any fish can be sold.
- Fishers must provide Ecotrust/T’aaq-wiihak monitors access to their catch for validation and CWT sampling. If landing in Zeballos, CWT sampling will be performed by J.O. Thomas monitors.
- Home use may be offloaded prior to landing at the designated landing site if your fisheries manager verifies the catch and provides you with an offload record to be provided to the Ecotrust monitor at the time of landing.
- Your Nations’ Guardians and DFO will be doing on water patrols.
- **NOTE- DFO is requiring that all trollers use a Vessel Monitoring System when participating in this fishery. According to DFO’s requirement, trollers must have VMS installed and operating, using a service provider.** The Five Nations’ leadership is not requiring trollers to use VMS for this fishery.
