ISBM Esperanza Fishery: Updated July 28, 2022
Notice Valid from July 28 – August 10, 2022

Fishers are required to retain 100% of the fish they catch (including all rockfish), with the exception that fishers can release undersized salmon, halibut, lingcod, and all dogfish. Fish that cannot be sold may be taken for home use.

HAIL OUT PROCEDURES: **Fishers are required to hail out for each trip.** "Hailing out" is when a Five Nations skipper communicates that they are heading out into a Five Nations fishery to our monitoring company, Ecotrust Canada. Hail outs can be made up to 12 hours before leaving the dock. Landings will not be authorized if you do not hail out. **Hail outs to our Facebook page, left on our office phone line, or sent to our Fisheries Coordinators, will not be accepted.** Hail outs can be made 24 hours/day using our website (www.taaq.ca) or by calling the hail phone:

Phone (call/text/voicemail): 250-266-0418

LANDING / HAIL IN PROCEDURES: Fishers **MUST HAIL IN** to 250-266-0418 to confirm a landing time at least **24hrs in ADVANCE** of landing to arrange for a designated monitor to be present at your landing. Please understand that the monitors need time to arrange this. The hail phone is monitored from Monday to Friday, 9am – 5pm. Please call the hail phone and pre-arrange a time before Friday at 5pm if you are landing on the weekend.

A designated Ecotrust monitor must be present at all landings. An Ecotrust monitor will validate your catch, collect fishing logs, and provide you with a landing slip. Twenty percent of landings will also be CWT sampled by Ecotrust monitors in Tofino or J.O. Thomas monitors in Zeballos.

PLEASE NOTE: Designated monitors will only be available to validate catch from Monday to Friday.

Landings can occur only at the designated landing sites outlined below:

Gold River	Gold River Dock/Ahminakis Boat Launch	Buyers need to be pre-arranged by the fisher before landing.
Zeballos	Ehattesah Ice (formerly Midisland)	Buyer needs to be pre-arranged and only Ehattesah fishers are currently authorized to use. Ice Machine and infrastructure is inactive currently

FISHING LOGS: Fishers must fill out a Fishing Log on a daily basis (one page per fishing day), recording all kept **AND** released fish. This fishing log must be submitted to the Ecotrust monitor at the time of landing.

PACKING FISH: Packing, or landing catch for another vessel, is only authorized in cases where the combined catch onboard the vessel does not exceed the trip limit. If the catch does exceed the trip limit, written authorization from your fisheries manager will be required. The packer must produce a signed fishing log (completed by the fisher) for the catch.

MONITORING

- 100% of landings and catch must be monitored by a designated monitor prior to sale. A landing slip is required before any fish can be sold.
- Fishers must provide Ecotrust monitors access to their catch for validation and CWT sampling. In Zeballos, CWT sampling will be performed by J.O. Thomas.
- All halibut being sold will be tagged with a white **HA'OOM tag** prior to sale to support traceability and accountability of Five Nations fish and to mark it as unique in the marketplace.
- Home use fish may be offloaded prior to landing at the designated landing site if your fisheries manager verifies the catch and provides you with an offload record to be provided to the Ecotrust monitor at the time of landing.
- Your Nations' Guardians and DFO will be doing on-water patrols.
- **DFO requires that all trollers use a Vessel Monitoring System when participating in this fishery. According to DFO's requirement, trollers must have VMS installed and operating, using a service provider.**

- Fishers are required to ensure their vessels comply with Transport Canada, CFIA, and WorkSafeBC regulations.
