HAIL OUT PROCEDURES:

Fishers are required to hail out for each trip. Hail outs can be made up to 12 hours before leaving the dock. Landings will not be authorized if you do not hail out. **Hail outs to our Facebook page, left on our office phone line, or sent to our Fisheries Coordinators will not be accepted.** Hail outs can be made 24 hours/day using our website (www.taaq.ca) or by calling the hail phone:

LANDING / HAIL IN PROCEDURES:

If landing outside of regularly scheduled offloads, fishers **MUST HAIL IN** to 250-266-0418 at least **24hrs in ADVANCE** of landing to confirm their landing times and arrange for a designated monitor to be present at their landing. Please understand that the monitors need time to arrange this. The hail phone is monitored seven days a week, 7 am – 7 pm.

A designated Ecotrust monitor must be present at all landings. An Ecotrust monitor will validate your catch, collect fishing logs, and provide you with a landing slip. Twenty percent of landings will also be CWT sampled by Ecotrust monitors.

Landings can occur only at the designated landing sites outlined below:

	Location	Information
Gold River	Gold River Dock/Ahminaquis Boat Launch	Scheduled offloads: 10:00am-1:00pm Monday-Wednesday-Friday

FISHING LOGS:

Fishers must fill out a Fishing Log daily (one page per fishing day), recording all kept **AND** released fish. This fishing log must be submitted to the Ecotrust monitor at the time of landing. Fishers must fill out a fishing log even if no fish was caught.

PACKING FISH:

Packing, or landing catch for another vessel, is only authorized in cases where the combined catch onboard the vessel does not exceed the trip limit. **If the catch does exceed the trip limit, written authorization from your fisheries manager will be required.** The packer must produce a signed fishing log (completed by the fisher) for the catch.

MONITORING:

- 100% of landings and catch must be monitored by a designated monitor prior to sale. A landing slip is required before any fish can be sold.
- Fishers must provide Ecotrust monitors access to their catch for validation and CWT sampling.
- All halibut being sold will be tagged with a white **HA'OOM tag** prior to sale to support traceability and accountability of Five Nations fish and to mark it as unique in the marketplace.
- Home use fish may be offloaded prior to landing at the designated landing site if your fisheries manager verifies the catch and provides you with an offload record to be provided to the Ecotrust monitor at the time of landing.
- DFO will be doing on-water patrols.
- The fishery is open in the Court Defined Area.

DFO licence condition - Electronic Monitoring (EM) System:

For vessels equipped with commercial longline gear [a marine hydraulic powered block] that are hailed on groundfish trips, at-sea monitoring of all fishing activity is always required by means of either:

- a designated groundfish at-sea observer carried on board the vessel, OR
- the use of a functioning electronic monitoring (EM) system on board the vessel as described below.

The vessel master of a vessel using Electronic Monitoring (EM) in place of a designated at-sea observer on-board the vessel shall make arrangements with a Designated Groundfish At-Sea Observer Service Provider (Designated Service Provider) to ensure the Electronic Monitoring system is properly installed and functioning. Archipelago Marine Research Ltd. (AMR) is the EM service provider currently approved by the Department in the Pacific region. AMR can be contacted at (250) 383-4535 (during office hours) or 1-800-663-7152.
